U.S. annual GDP 1990-2022

Published by [Statista Research Department](#), Nov 3, 2023

In 2022, the U.S. GDP increased from the previous year to about 25.46 trillion U.S. dollars. This increase in GDP can be attributed to a continued rebound from the impact of the coronavirus pandemic. Gross domestic product (GDP) refers to the market value of all goods and services produced within a country. In 2021, the United States has the largest economy [in the world](#). See, for example, the [Russian GDP](#) for comparison.
